Weekly Highlights (source - First Metro Securities):

Inflation on track despite easing
 According to Bangko Sentral ng Pilipinas (BSP) Governor Amando M. Tetangco, inflation for this year is still likely to remain within the central bank's 2-4% target despite recent easing. In a poll conducted by BusinessWorld, 17 economists returned a median of 1.5% Jun-15 inflation. BSP, meanwhile, expects last month's inflation to be within 1.1-2% due to lower fuel prices and utility adjustments. While general school opening may push certain indices up (e.g., education, housing, etc.), economist still expect softer prices given lower fuel and rice prices which peaked around this time last year.

The Philippine Statistics Authority will be releasing CPI figures tomorrow, 7 July 9:00 AM.
